Amount requested:

\$365,500

Project description:

A new, six-pronged approach will be carried out involving job creation through light manufacturing, casual retail, trail towns tourism, higher education, exemplary healthcare, and sustainable energy development in the Northern Dauphin region. This program will take the National Main Street's Five-Point Committee Approach, proven in hundreds of small communities throughout the United States over the past 35 years, and develop it into a comprehensive economic recovery package.
